ABOUT ME

B.Tech student and aspiring software developer with hands-on experience building web applications using React, TypeScript, JavaScript, Python, Supabase, PostgreSQL, and modern web technologies. Experienced in developing real-world projects involving web auditing, campus automation, attendance security, and career knowledge graphs. Interested in software development, frontend engineering, backend systems, and building practical products that solve real problems.

EDUCATION

(2024 - 2028)

MALLA REDDY UNIVERSITY
B.Tech — ARVR/Engineering

(2021 - 2023)

PALLAVI MODEL SCHOOL
Intermediate

(2014 - 2021)

ST.MARTIN'S HIGH SCHOOL
Secondary School

SKILLS

- Languages:
JavaScript, TypeScript, Python, HTML, CSS, SQL
- Frontend:
React, TypeScript, Vite, Responsive Web Design
- Backend & Database:
Supabase, PostgreSQL, SQLite, REST APIs
- Tools & Technologies:
Git, GitHub, VS Code, Firebase/Supabase Authentication
- Concepts:
Authentication & Authorization, CRUD Applications, API Integration, Database Design, QR Systems, GPS Validation, Web Scrapping, Data Analysis

LANGUAGES

Hindi

English

Telugu

PROJECTS

• SKILLGRAPH — CAREER KNOWLEDGE GRAPH

React · TypeScript · CognoDB

- Built a career knowledge graph connecting skills, projects, technologies, roles and companies.
- Added interactive graph exploration and skill-gap analysis for career planning.

• SMART QR ATTENDANCE SYSTEM

React · TypeScript · Supabase · PostgreSQL

- Developed QR attendance with dynamic tokens, session validation and duplicate prevention.
- Added GPS-based college verification using Haversine distance calculation.

• CAMPUSPASS — DIGITAL OUTPASS SYSTEM

React · TypeScript · Supabase · QR

- Built a digital outpass system with student, mentor, HOD and security workflows.
- Implemented QR-based pass verification, authentication and expiry validation.

• PAGE PULSE — WEBSITE AUDIT TOOL

React · TypeScript · Web APIs

- Built a website auditing tool analyzing SEO, accessibility, content and performance.
- Generates health scores using page metadata, headings, images, response time and other metrics.
